In the BRITISH COLUMBIA GAZETTE, and in one newspaper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition, and copies of such notice shall be sent by the parties inserting such

notice to the Clerk of the House to be filed amongst the records of the Committee on Standing Orders.

60. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by the preceding rule, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a draw-bridge or not, and the dimensions of the same.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. RICHMOND BY-LAWS.

A BY-LAW

To authorise the sale of lands within the Municipality of Richmond upon which taxes have been due and in arrears for two years.

WHEREAS it is expedient that all lands or real property within the limits of the Corporation of the Municipality of Richmond, upon which municipal taxes or special rates, or both, have been due and in arrears for two years shall be sold, and the proceeds applied in the reduction of such taxes and rates:

Be it therefore enacted by the Municipal Council of the Corporation of the Township of Richmond, under the authority of sub-section (130) of section 50 of the "Municipal Clauses Act, 1896," and sections 14 and 15 of the "Municipal Clauses Act Amendment Act, 1897," as follows:—

1. In the construction of this by-law the expression "taxes" shall mean and include all taxes and special rates.

2. The Collector of the said Municipal Corporation is hereby authorised and directed whensoever taxes on

any land or real property have been due for two years preceeding the current year, to submit to the Reeve of the said Municipal Council a list, in duplicate, of all the lands or real property liable under the provisions of this by-law to be sold for taxes, with the amount of arrears against each lot set opposite to the same, and the Reeve shall authenticate such list by affixing thereto the seal of the Corporation and his signature, and one of such lists shall be deposited with the Clerk of the Corporation, and the other shall be returned to the Collector with a warrant thereto annexed, under the hand of the Reeve and the seal of the Corporation, commanding him to levy upon the land or real property for the arrears due thereon, with his costs.

3. It shall not be the duty of the Collector to make inquiry before effecting a sale of lands enumerated in such list.

4. The Collector shall prepare a copy of the list of lands or real property to be sold, and shall include therein, in a separate column, a statement of the proportionate costs chargeable on each lot for advertising and for the commission authorised by this by-law to be paid to him, and shall cause a copy of such list to be printed for a period of one month preceeding the date of such intended sale in some newspaper circulated in this Municipality.

5. The advertisement shall contain a notification that unless the arrears and costs are sooner paid he will proceed to sell the lands or real property for the taxes on a day, a time, and at a place named in the advertisement.

6. The Collector shall, at least two months before the time of sale, also deliver to or deposit in the post office to the address of the owner of such property which is to be sold for taxes as aforesaid, or to the agent of such owner, a notice in writing of the amount of taxes due, and that the property is to be sold for arrears so due, and in case the address of the owner or agent is unknown, a notice to the same effect shall be posted on the land intended to be sold, and also, and at least two months before the time of sale, post a notice similar to the advertisement on the Town Hall, Richmond.

7. The sale shall be on the thirty-third day after the first publication in a newspaper of such list, exclusive of the day of such publication, except in the case the said thirty-third day shall fall on Sunday or a holiday, in which case such sale shall take place on the following day, at the Town Hall, in the Township of Richmond, and shall begin at 12 o'clock noon.

8. If at any time appointed for the sale of lands or real property no bidders appear, the Collector may adjourn the sale from time to time.

9. If the taxes have not been previously collected, or if no one appears to pay the same at the time and place appointed for the sale, the Collector shall sell at public auction so much of the land or real property as may be sufficient to discharge the taxes and all lawful charges incurred in and about the sale and the collection of the taxes, selling in preference such part as he may consider best for the owner to sell first; and in offering such land or real property for sale it shall not be necessary to describe particularly the portion of the lot or section which shall be sold, but it will be sufficient to say that he will sell so much of the lot or section as shall be necessary to secure the payment of the taxes due, and the amount of taxes stated in the advertisement shall in all cases be *prima facie* evidence of the correct amount due.

10. If the Collector fails at such sale to sell such lands or real property for the full amount of arrears of taxes due he shall at such sale adjourn the same until a day to be publicly named by him, not earlier than one week and not later than three months thereafter, of which adjourned sale he shall give notice by advertisement in the newspaper in which the original notice was advertised, and on such day he shall sell such lands or real property for any sum he can realize; provided that in the event of the price offered for any lot or section at such adjourned sale being less than the amount of arrears of taxes due in respect of such lot or section, the Collector shall have power, if he thinks fit so to do, to purchase such lot or section in the name of and on behalf of the said Municipal Corporation.

11. If the purchaser of any property or parcel of land fails immediately to pay the Collector the amount of the purchase money the Collector shall forthwith again put up the property for sale.

12. Immediately after every sale the Collector shall return a list of the arrears satisfied by such sale to the Clerk of the Corporation, and shall at the same time

pay in the proceeds to the Treasurer of the said Corporation.

13. The Collector shall be entitled to five per centum commission upon the sums collected by him as aforesaid.

14. This by-law may be cited for all purposes as the "Richmond Real Estate Tax Sale By-Law, 1897."

Passed by the Municipal Council of Richmond this 3rd day of July, 1897.

The following Rules and Regulations, adopted at the meeting of the Board of Horticulture held on the 24th June last, are published in conformity with the provisions of the "Horticultural Board Act, 1894."

J. R. ANDERSON,
Deputy Minister of Agriculture.

PROVINCIAL BOARD OF HORTICULTURE.

Rules and Regulations made and published under authority of Section 7
of the "Horticultural Board Act, 1894," and of the
amendments thereto.

Title.

- 1 These Regulations may be cited as the "Horticultural Regulations."

Definitions.

2. In these Regulations the word "pests" shall mean and include woolly aphis, apple tree aphis, scaly bark louse, oyster-shell bark louse, San Jose scale, red scale, borers, codlin moths, currant worms, caterpillars, or other known injurious insects, and all fungous diseases. "The Board" shall mean the Provincial Board of Horticulture.

Notification of the Presence of Pests.

3. All nurserymen, fruit-growers, and all persons owning, occupying, or managing an orchard, garden, or nursery infected with any pest, shall notify the member of the Board for the district in which such orchard, garden, or nursery is located, or the Secretary or Inspector, or the agent of the Board in the district, of the fact that such orchard, garden, or nursery is so infected.

Inspection of Nursery Stock.

4. All importers of nursery stock, trees, or plants must give notice to a member of the Board, or his agent, or the Inspector of Fruit Pests, upon the arrival of any nursery stock, trees, or plants, before the removal of such nursery stock, trees, or plants from any dock, wharf, mole, station, or warehouse where such nursery stock, trees, or plants have been landed, and if such nursery stock, trees, or plants are found to be free of insect pests and fungous diseases, the said member of the Board, his agent, or the Inspector of Fruit Pests, shall issue a certificate to that effect; and all such nursery stock, trees, or plants, if found to be infected with any insect pest or fungous disease, shall be dealt with according to the Rules and Regulations of the Board. All dealers, nurserymen, or persons selling or distributing nursery stock, trees, or plants for which no clean certificate is in force shall, before distributing or offering for sale any article above mentioned, notify the member of the Board, his agent or representative, in whose district any such article is found, or the Secretary of the Board, or the Inspector of Fruit Pests, who shall inspect or cause to be inspected such nursery stock, trees, or plants, and if they are found to be free from pests shall issue a certificate to the owner or person in charge, stating that said articles appear to be free from pests. Such certificate shall be in force for three months from date of issue, unless revoked by further inspection.

Disinfection of Nursery Stock, Trees, and Plants.

5. All persons owning or having in their possession nursery stock, or trees and plants of any kind, infected with insect pests or fungous disease, shall cause the same to be disinfected and cleansed by using the remedies herein prescribed, or such other insecticides and fungicides as may be found effective, and are approved of by a member of the Board or the Inspector of Fruit Pests, and no such infected nursery stock, trees, or plants shall be sold, forwarded, distributed, or parted with until a certificate of the satisfactory cleansing thereof shall have been obtained from a member of the Board or his agent, or the Inspector of Fruit Pests. Any member of the Board or the Inspector of Fruit Pests may order the destruction, by rooting out and burning, all infected nursery stock, trees, or plants of any kind, if, in the opinion of such member of the Board or Inspector of Fruit Pests, such a course is considered expedient in the interests of the fruit-growing industry.

Inspection of Imported Fruit.

6. All importers of fruit must give notice to a member of the Board or his agent, or the Inspector of Fruit Pests, upon the arrival of any and all shipments of fruit; and all fruit and fruit packages imported into this Province shall be inspected, and if found to be free from insect pests and fungous disease a clean certificate shall be issued therefor in conformity with the Rules and Regulations of the Board: Provided, however, that no fruit or fruit packages imported into this Province shall be removed from any dock, wharf, mole, or station where such fruit and fruit packages have been landed, before inspection and such clean certificate thereof shall have been obtained, and all such fruit and fruit packages as may be found infected with any insect pest or fungous disease shall be either destroyed by the importers thereof, by such process and within such time as any member of the Board, the Inspector of Fruit Pests, or any agent appointed by the Board may direct, or shall be re-shipped, within such time as any member of the Board, the Inspector of Fruit Pests, or any agent appointed by the Board, may direct, by the importers thereof to some point without the Province.

8. All persons shipping, sending, or delivering any fruit, fruit trees, scions, cuttings, or plants within the Province shall place upon or securely attach to each box, crate, or other package or parcel containing the same, a distinct stamp, mark, or label showing the name of the producer and shipper or sender, and the locality where grown, but boxes and barrels containing fruit shall be stencilled or stamped with letters not less than three-quarters of an inch in length.

Treatment of Nursery Stock.

9. All infected nursery stock shall, before being distributed, be disinfected by dipping in a solution of one pound caustic soda (concentrated lye) and one pound whale-oil soap to every five imperial gallons of water, thoroughly dissolved, and applied at 103° Fahrenheit in a vat or any suitable vessel, or the said nursery stock may be disinfected by covering with an air-tight tent or box, and for each and every 100 cubic feet of space therein one ounce of fused cyanide of potassium (58 per cent.), one fluid ounce of sulphuric acid, and two fluid ounces of water shall be used. The cyanide of potassium shall be placed in an earthenware vessel, the water poured over the said cyanide of potassium, afterwards adding sulphuric acid, and the tent or box to be immediately closed tightly and allowed to remain closed for not less than forty minutes. Treatment for disinfection shall continue until all insect pests or their larva are destroyed.

Remedies.

10. For the extirpation of the "woolly aphid" and other insect pests, the Board has adopted the following formulæ, which are found to be effectual in the States of California, Oregon, and Washington:—

Spray No. 1.

(Winter Spray for Woolly Aphis and Scale Insects.)

Ingredients.

Lime, unslacked.....	30 lbs.
Sulphur, powdered.....	20 "
Salt, coarse	15 "
Water	60 gals.

Directions.

Place 10 pounds of lime and 20 pounds of sulphur in a boiler with 20 gallons of water, and boil over a brisk fire for two hours, until the sulphur is thoroughly dissolved. It will then be amber-coloured. Next place 20 pounds of lime in a cask and pour water enough over it to thoroughly slack it. Add the salt. When dissolved, add to the lime and sulphur and boil half an hour longer. Add enough water to make 60 gallons. Apply lukewarm.

Directions for use.

Spray when the trees are dormant, or as soon as the leaves fall, and again in the spring before the buds swell. A good force-pump should be used, and care must be taken to thoroughly cover the infected trees with the mixture, which should be constantly stirred when applying.

The above preparation can be obtained in solid form, requiring only the addition of water to be ready for use, and, owing to the difficulty of preparation, the Board advises the adoption of this method. Care should be taken to add the necessary quantity of water to reduce the mixture to the strength recommended above.

NOTE—To ensure freedom from lumps it is advisable to pass the mixture through a wire sieve or strainer. Nozzles which are self-cleaning and adjustable, such as the "Improved Bean" and "Bordeaux," are best adapted for distributing this and other spraying mixtures which contain a considerable amount of solid matter.

Spray No. 2.

(Summer Spray for Aphis.)

Ingredients.

Quassia chips	8 lbs.
Whale oil soap	7 "
Water	100 gals.

Directions.

Boil the quassia chips in about one gallon of water to each pound quassia chips for one hour. Dissolve the soap in hot or boiling water; strain and mix both together, and add the required amount of water to make 100 gallons altogether.

To be used with spray pump with as much force as possible. This is the standard remedy for aphis in hop yards, and has given good results against other forms of aphides wherever tried, with no injury to foliage.

Spray No. 4.

(Bordeaux Mixture for Apple-scab and other Fungous Diseases.)

Ingredients.

Sulphate of copper (bluestone).....	4 lbs.
Fresh unslacked lime.....	4 "
Water	50 gals.

Directions.

In a barrel place 25 gallons of water. Weigh out 4 pounds of sulphate of copper; then tie the same in a coarse gunny sack and suspend it just beneath the surface of the water. By tying the bag to a stick laid across the top of the barrel, no further attention will be required.

In another vessel slack the 4 pounds of lime, using care in order to obtain a very smooth paste free from grit and small lumps. To accomplish this it is best to add only a small quantity of water at first, say two or three pints. When the lime begins to crumble and the water disappears, add more water gradually.

If added carefully and slowly, a smooth paste will be obtained, provided the lime is of good quality. Then add sufficient water to bring the whole up to 25 gallons.

When the copper sulphate is entirely dissolved and the lime cool, pour the lime milk and copper sulphate solution slowly together in a barrel, and stir well with a broad wooden paddle to ensure perfect freedom from lumps of lime; it is often necessary to pass the whole mixture through a fine wire sieve or strainer before commencing to spray. For apple and pear-scab, spray before the buds open. Repeat before the blossoms expand, and again after the blossoms fall. If necessary, repeat again in ten days' time; this will depend upon weather conditions and variety of fruit treated.

The Vermorel nozzle, which distributes the spray in a mist like form, is probably the best for use with this mixture.

Spray No. 8.—Hellebore.

(For Pear and Cherry Slugs, Gooseberry and Currant Worms.)

For use with spray pump take 1 ounce hellebore to 1 gallon water. Steep the hellebore in one pint of boiling water for an hour, then add the balance of water cold. Hellebore is, however, generally used in the powder form, dusted on the trees or plants treated. A machine for the purpose is the best method of using it on a large scale. In all cases care should be taken to get fresh hellebore to ensure satisfactory results.

Spray No. 9.—Paris Green Spray.

(For Codlin Moth, Caterpillars and other Leaf-eating Insects.)

Ingredients.

Paris green.....	4 ozs.
Fresh slaked lime.....	1 lb.
Water	50 gals.

Make a paste of the Paris green with a little water. Make the lime into milk of lime with water. Mix all together and add water to make the required amount.

Paris green is a heavy powder and does not remain long in suspension, hence it must be kept constantly stirred when using. Be sure that good lime is used to prevent burning of foliage. Apply with spray pump. London purple may be used in place of Paris green, but is not usually so reliable.

Paris green or London purple can generally be used to advantage with Bordeaux mixture, making a combined fungicide and insecticide. Use in the proportions given above, viz., 4 ounces Paris green to 50 gallons Bordeaux mixture.

Spray No. 15.—Lye and Soap Wash.

(For Winter use Only.)

Ingredients.

Concentrated lye	1 lb.
Whale oil soap	1 "
Water	5 gals.

Directions.

Dissolve the lye and soap in the water heated. The mixture may be applied with a swab or brush, or with the spray pump if used warm.

One thorough application in the fall and another before growth commences in the spring should be made when used against woolly aphides. This is also an excellent wash to remove moss or lichen from trees and bushes, and for this purpose alone half the amount of soap is sufficient.

For further information regarding insect pests and spraying mixtures see Horticultural Bulletin, which can be obtained from members of the Board, or by application to the Department of Agriculture, Victoria.

11. Where pests or fungous diseases are found to exist during the growing season, while the trees are in leaf, spraying must be done and such remedies applied as shall be recommended by or under authority of the Board from time to time, so that the insects or diseases can at least be held in check until the stronger washes of the dormant season can be safely applied.

Destruction of Packages.

12. All boxes, crates or other packages or wrappings which have contained infected nursery stock shall be destroyed by fire immediately after the removal of the contents thereof.

Hop-fields.

13. Where hop-fields are infected with the hop-louse, spraying must be done as the Board from time to time shall recommend.

Inspection at points other than Quarantine Stations.

14. Importers or owners of nursery stock, trees or plants desiring to have such nursery stock, trees or plants inspected at points other than regular quarantine stations, may have such inspection done where required: Provided, however, that such importers or owners shall pay all charges of inspection and expenses of the officer employed in such inspection. Such charges and expenses to be paid before a certificate is granted.
